Hello and welcome all. My name is Zachary Marvin, and I am with the Veritas et Iustitia party. Today I am here to tell you why I am the best candidate to vote for.

First thing I would like to bring up is the political issues and my stance on them. There are many policies that can be put in place to solve all these problems however there are a couple that we support the most. The first problem is human trafficking, and our solution would be to create a new department in the police force that specializes in stopping human trafficking operations. Next problem is stem cell research, and our solution is to restrict inhumane research methods and find new ways to research that decrease the inhumane actions as much as possible. Another problem is minimum wage, and our solution is to reevaluate the minimum wage on a state-by-state basis and change it based on the living conditions in each state. The next problem is COVID-19 and the government's response, and our solution is to not enforce anything because it is unconstitutional, and more research needs to be done first. Also, there's the problem of universal healthcare and we believe that it is unconstitutional as well because of where the funding comes from and who healthcare helps. The last problem is gun control, and our solution is to stick to what had already been stated in the constitution and give everyone the right to bear arms however a more extensive background check will be required from everyone when buying a gun. These are the policies we feel strongly about however there are many more that we plan to implement if I am elected.

The other thing I would like to bring up is why you should vote for me instead of the other candidates. The most important reason is that as president I will listen to everyone's voice and create a

solution that solves the problem the best while considering everyone's opinions. The next reason is my background with several degrees (J.D. in law and MBA) from Harvard and National War College accompanied by experience in military when I achieved the rank of Technical Sergeant in the air force (Pilot). While there are many more reasons that I am the best candidate the last one that I'll bring up is that I have 15 years of experience in politics with 8 years of that being in congress which shows that I have knowledge of the current issues and I will use logic to solve these problems. The Veritas et Iustitia party is the best party to vote for due to the reasons previously stated as well as having clearly outlined policies and our organized plan.

Thank you all for listening to my speech and don't forget to vote for Zachary Marvin for president in the 2021 election.
