A Recent Scandal

Parker, Colorado, November 20, 2021-

Recently, a scandal concerning a Governor under our political party was exposed. The Governor of our home state party was caught embezzling millions of dollars from public education; claims were made that we supported this governor in his last campaign. After investigating, we are deeply ashamed that a person of our campaign has taken advantage of people in this kind of way. We committed to transparency and Justice, and we will do our best on this.

People from the schools and the major companies will get their money back and a big apology from us. Also, we will give double the amount to the hospitals in our city because right now they need it more than anyone and we will make sure that we will give every dollar to the citizens of this city and if you are not the citizen and you lost money too, we will give you the money as well.

Also, people will be angry at our governor, and he will apologize to our citizens so can forgive him. We are still going to be ashamed of this situation until everything is going to be settled and going to be everything like it was again. As our website says, our goal is to make this country the best in politics and government plus we only want the best and only the best we will make more buildings for people to

work and to make money out of it. If you want to make the country better help us, then we are waiting on you.

Andrei Haurylau was born on April 23, 1980, in Denver, Colorado. After living in the U.S. and completing his primary and secondary education, he moved to Europe in the early 2000's to complete a Bachelor's in Public Policy and had the opportunity to work with United Nations. Then he moved back to the United States in 2012 and attended Harvard University to obtain a Bachelor's in Business Administration. Andrei continued to work in the government and joined Zach's campaign with almost 15 years of political experience.
